**Amazonian Caboclo and the Acai Palm: Forest Farmers in the Global Market** Eduardo S. Brondizio  
This remarkable monograph tells the story of the boom in the acai fruit economy--from a rural staple to a chic health food delicacy in national and international markets--and examines the development of the production systems and commodity chains required to supply the burgeoning demand for this fruit. It also carefully reconsiders the contested and stigmatized history of the social identity of caboclos.
