“Something extraordinary has happened. Due to a happy accident with our logistics division we have been handed an opportunity to push the boundaries on a global stage.” Leon replied without looking from the screen. “So we are training them to be soldiers?” “No, no. We don’t need more soldiers. We need something better. We have a chance to eliminate the need for war all together. When you control the monster, what is there left to fear?” On a fateful fall day in Texas, Luke Jones is stabbed, burned, and left for dead while, in a nearby city, Francis Guy is mugged, bludgeoned and left to the same fate. They awaken, not only alive and fully healed, but captured by an indomitable government agency. There, Jones and Guy discover they have been gifted with super-human like abilities as they are forced to undergo one life threatening trial after another. With only each other for support, Jones and Guy become a formidable team as they are pitted against others with abilities beyond imagination. When faced with a grim ultimatum, they perform a daring escape back into the free world, leaving smoke and bodies in their wake. With nowhere to run and their very lives at stake, the duo split up in an attempt to take down this ruthless organization with the very same powers they were being trained to use. Thrown into a series of extraordinary circumstances, they meet both friend and foe alike as the battles they waged in captivity prove more and more useful. Will they drown under a sea of government conspiracy or will they rise from the ashes of their former lives and be reborn?
