This coloring book features Northern European religious symbols with Celtic knot work. The coloring book includes historical and modern symbols along with historical and geographical information. This book is a rare combination of: Coloring book, Illustration, and history book. If wielding crayons like a broadsword, creating a wide swathes of color, is your style, this simple coloring book is for you. It is designed for people who want to relax and enjoy coloring while not worrying about staying in the lines or for colorers who are developing their skills. I draw from historical and modern religious and mythological symbols found throughout Northern Europe and illustrate them into coloring pages. Some pages are faithful illustrations of historical objects that were so impressive, I didn't need to enhance them. While others are illustrations where I have embellished basic symbols. in formatting the book I have also intentionally staggered pages and left blank pages to allow bleed through for those who color with pens or water color. Many people find thoughts and ideas enter their mind as they color. Considering this, I have aligned images to the top, and text at the bottom of the page, allowing you a blank space for you to write, doodle, or journal. Since I am a nerd, I had to research my subjects and thought; why not be informative as well as entertaining? I have included some facts about the origin, concept, etymology and historical context of the symbols. The maps shown give the location and cities that I mention. The descriptions are short precise to encourage people to research what they're interested in.
