## **Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes)** Jiagu Xu

Olympiad mathematics is not a collection of techniques of solving mathematical problems but a system for advancing mathematical education. This book is based on the lecture notes of the mathematical Olympiad training courses conducted by the author in Singapore. Its scope and depth not only covers and beyond the usual syllabus, but introduces a variety of concepts and methods in modern mathematics as well. In each lecture, the concepts, theories and methods are taken as the core. The examples serve to explain and enrich their intentions and to indicate their applications. Besides, appropriate number of test questions is available for the readers' practice and testing purpose. Their detailed solutions are also conveniently provided. The examples are not very complicated so readers can easily understand. There are many real competition questions included which students can use to verify their abilities. These test questions originate from many countries all over the world. This book will serve as a useful textbook of mathematical Olympiad courses, a self-study lecture notes for students, or as a reference book for related teachers and researchers.

### **From reader reviews:**

#### **Terry Sugg:**

The guide with title Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) possesses a lot of information that you can understand it. You can get a lot of gain after read this book. That book exist new knowledge the information that exist in this guide represented the condition of the world at this point. That is important to you to find out how the improvement of the world. This particular book will bring you with new era of the globalization. You can read the e-book on your own smart phone, so you can read that anywhere you want.

#### **Gary McIntosh:**

Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) can be one of your nice books that are good idea. Most of us recommend that straight away because this publication has good vocabulary that could increase your knowledge in language, easy to understand, bit entertaining but nonetheless delivering the information. The article writer giving his/her effort to place every word into pleasure arrangement in writing Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) nevertheless doesn't forget the main place, giving the reader the hottest along with based confirm resource information that maybe you can be one among it. This great information can draw you into completely new stage of crucial considering.

#### **Jerri Montgomery:**

That e-book can make you to feel relax. This specific book Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) was vibrant and of course has pictures on the website. As we know that book Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) has many kinds or type. Start from kids until young adults. For example Naruto or Investigation company Conan you can read and believe you are the character on there. Therefore , not at all of book are make you bored, any it can make you feel happy, fun and relax. Try to choose the best book for you and try to like reading in which.

#### **Lisa Sullivan:**

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's internal or real their pastime. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Lecture Notes on Mathematical Olympiad Courses: For Senior Section (in 2 Volumes) can make you really feel more interested to read.
