Skywatching

David Levy

Skywatching David Levy

A comprehensive family reference guide to all the amazing phenomena of our night skies, with helpful charts and detailed photography This comprehensive introduction to our night skies has been written by a team of expert astronomers. Their collective experience, combined with a straightforward, no-nonsense approach creates the perfect guide to understanding galaxies, eclipses, the moon and constellations. Our solar system is brought to life through extraordinary images, and our night skies made easy to understand with colourful charts. Visually exciting and always informative, Skywatching covers both the historical and scientific aspects of astronomy. / Leads you through our immediate Solar System with the Sun, the Moon and the planets / Takes you into deep space, revealing the stars, galaxies and nebulae / Comprehensive bi-monthly star charts that can be used anywhere in the world, with constellation charts showing 85 star formations / Useful information on the equipment used for skywatching, from the huge optical telescopes used by professional astronomers to makeshift observatories

From reader reviews:

Gregory Kim:

Now a day those who Living in the era just where everything reachable by connect with the internet and the resources in it can be true or not call for people to be aware of each data they get. How many people to be smart in acquiring any information nowadays? Of course the answer is reading a book. Reading through a book can help men and women out of this uncertainty Information mainly this Skywatching book as this book offers you rich facts and knowledge. Of course the information in this book hundred pct guarantees there is no doubt in it as you know.

Fred Swett:

Playing with family in the park, coming to see the coastal world or hanging out with buddies is thing that usually you will have done when you have spare time, subsequently why you don't try issue that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Skywatching, it is possible to enjoy both. It is very good combination right, you still want to miss it? What kind of hang-out type is it? Oh can happen its mind hangout guys. What? Still don't obtain it, oh come on its identified as reading friends.

Eddie Barber:

This Skywatching is great guide for you because the content which can be full of information for you who have always deal with world and possess to make decision every minute. That book reveal it information accurately using great plan word or we can say no rambling sentences in it. So if you are read it hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but tough core information with splendid delivering sentences. Having Skywatching in your hand like obtaining the world in your arm, data in it is not ridiculous 1. We can say that no guide that offer you world in ten or fifteen minute right but this publication already do that. So , it is good reading book. Hey Mr. and Mrs. stressful do you still doubt that will?

Terrie Newlin:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is written or printed or descriptive from each source in which filled update of news. Within this modern era like at this point, many ways to get information are available for you. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Ready to spend your spare time to spread out your book? Or just searching for the Skywatching when you essential it?
