## Details, Technology, and Form (AsBuilt)

The *AsBuilt* series is dedicated to presenting recent examples of formal and material innovation in architecture through detail and technical drawings, diagrams, and photographs, as well as fabrication, assembly, and work-in-progress documentation. *Details, Technology, and Form*, the third volume in the series, explores the genesis of twenty-five projects built in the United States and Canada, many notable for their multi-disciplinary design process, all of which have contributed to the ongoing evolution of architecture as a synthesis of art, engineering, and craft. From designs inspired by responses to environmental and energy concerns to re-interpretations of regional precedents or transformations of pre-fabricated building systems, these projects are testaments to the range and reach of contemporary architectural technology.

*Details, Technology, and Form* includes outstanding projects by the following offices: Herzog & de Meuron \* Renzo Piano Building Workshop \* Zaha Hadid Architects \* HHF Architects Skidmore, Owings & Merrill \* Richärd + Bauer \* Morphosis Architects \* Ennead Architects \* Rafael Viñoly Architects \* Toshiko Mori Architect \* Anmahian Winton Architects \* SmithGroup Inc.
