His Glassy Essence: An Autobiography of Charles Sanders Peirce (The Vanderbilt Library of American Philosophy) Kenneth Laine Ketner

Charles Sanders Peirce (1839-1914), the most important and influential of the classical American philosophers, is credited as the inventor of the philosophical school of pragmatism. The scope and significance of his work have had a lasting effect not only in several fields of philosophy but also in mathematics, the history and philosophy of science, and the theory of signs, as well as in literary and cultural studies. Largely obscure until after his death, Peirce's life has long been a subject of interest and dispute. Unfortunately, previous biographies often confuse as much as they clarify crucial matters in Peirce's story. Ketner's new biographical project is remarkable not only for its entertaining aspects but also for its illuminating insights into Peirce's life, his thought, and the intellectual milieu in which he worked.
