The world's leading reference in hematopathology returns with this completely updated second edition. Authored by **international experts** in the field, it covers a broad range of hematologic disorders -- both benign and malignant -- with information on the pathogenesis, clinical and pathologic diagnosis, and treatment for each. Comprehensive in scope, it's a must-have resource for both **residents and practicing pathologists alike**.

- Authored by the **chief architects of the WHO classification** in neoplasms of hematopoietic and lymphoid tissue.
- Covers the **newest diagnostic techniques**, including molecular, immunohistochemical, and genetic studies.
- **Confirm or challenge your diagnostic interpretations** by comparing specimens to over 1,000 high-quality color images.
- Boasts **detailed, practical advice** from world leaders in hematopathology.
- Places an **emphasis on pathologic diagnoses**, including **molecular and genetic testing**.
- Updated with the **most current WHO classifications** of hematologic disease, including lymphoma and leukemia and peripheral T-cell lymphomas.
- **Covers hot topics in hematopathology**, such as the latest genetic insights into lymphoma and leukemia; the new nomenclature for myelodysplastic syndromes; new developments on the subject of Grey zone lymphoma; and much more.
- **Expert Consult eBook version included with purchase**. This **enhanced eBook experience** allows you to search all of the text, figures, images, and references from the book on a variety of devices. There's also a **downloadable image bank**, and **Virtual Microscope Slides** are featured in several chapters.

Give your clinicians the best guidance with this comprehensive reference in hematopathology.
