## **House Call** Darden North

No one would ever make the connection between the deaths: a young, attractive female nurse left brutally stabbed and floating in her bathtub and a prominent, older physician who drowns after tumbling from his deer stand. However, in this first novel, Mississippi physician Darden North masterfully weaves a fabric of secret self-indulgences, reverse discrimination, diverse sexual interests, and murder then drapes it across a fictional southern community. Lurking on the periphery, indirectly touching nearly every colorful character in this medical thriller, is a demonic killer whose victims share the wounds of a twisted psyche. To parallel the bumbling police investigation of the nurse's slaughter is the spreading poison of corporate financial greed that defiles the very core of decency. The unique qualities of this murder mystery lie in its gripping realism wrapped in intense personal tragedy, all crafted by a busy obstetrician-gynecologist who delivers babies. House Call appeals to men and women readers of all ages and occupations who crave fast-paced fiction ending with a surprising twist. Readers have labeled House Call a "can't-put-it-down, page-turner." Its references to medical care situations and characters blend perfectly with the novel's depiction of emotional human drama.
