The Urantia Book and the Art of Robert Venosa Stuart R. Kerr III

These works of art by Robert Venosa are highlighted to illustrate numerous celestial personalities and other related subject matter as described and discussed within The Urantia Book. These artworks are accordingly given new titles to best provide the impressions appropriate for their topical subject matter as inspired by their imagery. The Urantia Book (Urantia being the celestial name of our world) is an impressive collection of revelatory papers that comprise over 2000 pages of the most cohesively consistent presentation of philosophy, theology, cosmology, and world history I have ever come upon. These collected papers are purportedly presented to its readers under the collective authority of a widely diversified group of celestial personalities. The basic theology contained within is primarily Trinitarian in structure (i.e., it gives observance to the eternal Deity union of the three divine persons of the Trinity - the Universal Father, the Eternal Son, and the Infinite Spirit). It is also Jesusonian in inspiration (i.e., it recognizes the divine personality of our Creator Son of God, "maker of heaven and earth," as having incarnated on our world in the human nature of Jesus of Nazareth).
