Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics)

Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics)

Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics)

About the book…

In honor of Edgar Enochs and his venerable contributions to a broad range of topics in Algebra, top researchers from around the world gathered at Auburn University to report on their latest work and exchange ideas on some of today's foremost research topics. This carefully edited volume presents the refereed papers of the participants of these talks along with contributions from other veteran researchers who were unable to attend.

These papers reflect many of the current topics in Abelian Groups, Commutative Algebra, Commutative Rings, Group Theory, Homological Algebra, Lie Algebras, and Module Theory. Accessible even to beginning mathematicians, many of these articles suggest problems and programs for future study. This volume is an outstanding addition to the literature and a valuable handbook for beginning as well as seasoned researchers in Algebra.

about the editors…

H. PAT GOETERS completed his undergraduate studies in mathematics and computer science at Southern Connecticut State University and received his Ph.D. in 1984 from the University of Connecticut under the supervision of William J. Wickless. After spending one year in a post-doctoral position in Wesleyan University under the tutelage of James D. Reid, Goeters was invited for a tenure track position in Auburn University by Ulrich F. Albrecht. Soon afterwards, William Ullery and Overtoun Jenda were hired, and so began a lively Algebra group.

OVERTOUN M. G. JENDA received his bachelor's degree in Mathematics from Chancellor College, the University of Malawi. He moved to the U.S. 1977 to pursue graduate studies at University of Kentucky, earning his Ph.D. in 1981 under the supervision of Professor Edgar Enochs. He then returned to Chancellor College, where he was a lecturer (assistant professor) for three years. He moved to the University of Botswana for another three-year stint as a lecturer before moving back to the University of Kentucky as a visiting assistant professor in 1987. In 1988, he joined the Algebra research group at Auburn University.

From reader reviews:

Adrian Woodson:

The particular book Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics) has a lot of knowledge on it. So when you read this book you can get a lot of gain. The book was authored by the very famous author. The writer makes some research ahead of write this book. This specific book very easy to read you can obtain the point easily after perusing this book.

Marie Slaughter:

Exactly why? Because this Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics) is an unordinary book that the inside of the publication waiting for you to snap the idea but latter it will zap you with the secret the item inside. Reading this book beside it was fantastic author who also write the book in such wonderful way makes the content within easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of benefits than the other book have got such as help improving your proficiency and your critical thinking approach. So , still want to hold off having that book? If I ended up you I will go to the reserve store hurriedly.

Jacqueline Britt:

Your reading 6th sense will not betray an individual, why because this Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics) reserve written by well-known writer whose to say well how to make book which might be understand by anyone who also read the book. Written within good manner for you, still dripping wet every ideas and publishing skill only for eliminate your current hunger then you still hesitation Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics) as good book but not only by the cover but also by the content. This is one e-book that can break don't ascertain book by its include, so do you still needing an additional sixth sense to pick that!? Oh come on your examining sixth sense already told you so why you have to listening to another sixth sense.

David Auman:

The book untitled Abelian Groups, Rings, Modules, and Homological Algebra (Lecture Notes in Pure and Applied Mathematics) contain a lot of information on this. The writer explains the woman idea with easy way. The language is very straightforward all the people, so do definitely not worry, you can easy to read the item. The book was written by famous author. The author brings you in the new period of literary works. It is possible to read this book because you can keep reading your smart phone, or model, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can start their official web-site as well as order it. Have a nice examine.
