*Zubin Wadia, Hazem Saleh, Allan Lykke Christensen*

**Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java)** Zubin Wadia, Hazem Saleh, Allan Lykke Christensen

Pro JSF and HTML5 shows you how to leverage the full potential of JavaServer Faces (JSF) and HTML5. This book is for Java developers who aspire to build sophisticated, enterprise-grade web experiences with HTML5-enabled JSF. Written by JSF experts and verified by established community figures, this book will serve as your primary resource, helping you build or integrate well-designed HTML5-enabled JSF components into your rich internet applications.

Pro JSF and HTML5 starts by giving you a firm grounding in the design principles of component-based frameworks and the basics of JSF. It then details recent advancements in JSF 2.2 that make it friendlier, faster, and more productive than ever before. And it covers HTML5-enabled components, integration with JEE7 standards, 3rd party component libraries, security, and performance. The book concludes with a real-world application that puts everything you learned into practice.

In this book you'll learn

Foundational JSF topics such as the component life cycle, framework architecture, managed beans and CDI, expression language, conversion and validation, JSF events and view parameters.

Leveraging new features in JSF 2.2 such as Faces Flow, Resource Library Contracts, and Ajax file uploading.

Developing Advanced HTML5 enabled components in JSF 2.2.

Creating JSF 2.2 applications that utilize Java EE 7 technologies (CDI, JPA 2.1 and EJB 3.2) for bean management, transaction management and persistence.

Building advanced real-world JSF applications with considerations for security, performance, and usability.

If you're a Java developer interested in the world of component-based frameworks, Pro JSF and HTML5 is for you.

## What you'll learn

- Foundational JSF topics such as the component life cycle, framework architecture, managed beans and CDI (Context and Dependency Injection), expression language, exception handling, conversion and validation, JSF events (faces events, phase events and system events), and view parameters.
- Utilizing new features in JSF 2.2 such as Faces Flow, Resource Library Contracts, and Ajax file uploading.
- Developing Advanced HTML5 enabled components in JSF 2.2.
- Developing PrimeFaces and RichFaces applications.
- Developing JSF 2.2 applications that utilize Java EE 7 technologies (CDI, JPA 2.1 and EJB 3.2) in order to facilitate bean management, transaction management and persistence.

- Unit testing JSF applications.
- Stateless JSF views.
- Implementing Security in JSF applications.
- Tuning the performance of JSF applications.
- Translating application requirements into a model and then implementing the model using JSF 2.2 and Java EE 7 technologies.

## Who this book is for

This is a tutorial and reference is for both intermediate and experienced Java enterprise and web application developers.

### **From reader reviews:**

#### **Mary Torres:**

The book Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) give you a sense of feeling enjoy for your spare time. You need to use to make your capable far more increase. Book can being your best friend when you getting stress or having big problem together with your subject. If you can make studying a book Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) for being your habit, you can get more advantages, like add your own capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like open up and read a e-book Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java). Kinds of book are several. It means that, science publication or encyclopedia or other individuals. So , how do you think about this e-book?

#### **Harold Baughman:**

This Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) book is just not ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book is information inside this book incredible fresh, you will get details which is getting deeper anyone read a lot of information you will get. This Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) without we understand teach the one who examining it become critical in considering and analyzing. Don't be worry Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) can bring if you are and not make your case space or bookshelves' turn into full because you can have it in the lovely laptop even cell phone. This Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) having very good arrangement in word in addition to layout, so you will not really feel uninterested in reading.

#### **Victoria Owen:**

Do you among people who can't read pleasant if the sentence chained inside the straightway, hold on guys this aren't like that. This Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) book is readable through you who hate those straight word style. You will find the facts here are arrange for enjoyable looking at experience without leaving also decrease the knowledge that want to supply to you. The writer regarding Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) content conveys thinking easily to understand by many people. The printed and e-book are not different in the articles but it just different in the form of it. So , do you continue to thinking Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) is not loveable to be your top record reading book?

#### **Michael Brown:**

Reading a reserve make you to get more knowledge from that. You can take knowledge and information coming from a book. Book is published or printed or illustrated from each source that filled update of news.

With this modern era like right now, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just trying to find the Pro JSF and HTML5: Building Rich Internet Components (Expert's Voice in Java) when you required it?
