Everyone at some point in time has wished they could do life over. But what if that do-over meant you were ripped away from the one you love the most? What would you do to get back to them?

Just such a choice is given to Army Sergeant Hudson Brantley. Never having lived up to his potential, he elicits and manipulates his way into a top secret Pentagon time travel project and finds himself trapped in his past. Now this twenty-seven-year-old man is stuck in his own twelve-year-old body and must take on a new mission - getting back to his true love, Sarah.

The one thing that drives him on, the one thing he refuses to change, is the powerful love he feels for the woman he left behind. Where she's concerned everything must play out the same as before. From the date they originally met to the weekend they spent in a beautiful Virginia cabin, it all must be the same. But have the other changes he's made in this timeline bound him to a different fate? Is the happily ever after he was destined for attainable in his new reality?
