Tobias Smollett, Scotland's First Novelist: New Essays in Memory of Paul-Gabriel Boucé

This collection takes a fresh look at issues raised not only in Smollett's novels, for which he is usually remembered, but also in other works of this prolific Scottish author. Essays include a demonstration beyond reasonable doubt, after more than two centuries of debate, that it was indeed Smollett who authored 'The Memoires of a Lady of Quality' in the *Adventures of Peregrine Pickle*, with material supplied to him by Frances, Lady Vane; an examination of Smollett's contributions in the *Adventures of Ferdinand Count Fathom* to the rise of the Gothic novel; an analysis of the role his *An Essay on the External Use of Water* (1752) played in the conception of his last novel, the *Expedition of Humphrey Clinker*; and an exploration of the relationship between satire and graphic art in *History and Adventures of an Atom*. There is also a thorough review and re-evaluation of Smollett's encounter with Laurence Sterne in the south of France, and the exchange between Yorick and Smelfungus, 'one of the great fictional encounters in English literature'; a canvassing of the details of Smollett's 'Paper War' with Henry Fielding; and two essays on Smollett's undeservedly neglected *History of England*, one addressing the complicated relationships between Smollett's and David Hume's *History of England*; the second distinguishing for the first time the authoritative editions of the *History* and providing a descriptive bibliography.
