A Climate for Change: Global Warming Facts for Faith-Based Decisions Katharine Hayhoe, Andrew Farley

Most Christian lifestyle or environmental books focus on *how* to live in a sustainable and conservational manner. A CLIMATE FOR CHANGE shows why Christians should be living that way, and the consequences of doing so. Drawing on the two authors' experiences, one as an internationally recognized climate scientist and the other as an evangelical leader of a growing church, this book explains the science underlying global warming, the impact that human activities have on it, and how our Christian faith should play a significant role in guiding our opinions and actions on this important issue.
