Bite Marks: A Vampire Testament (Vampire Testaments) Terence Taylor

A teenage runaway is killed by a sadistic vampire with the pathology of a serial killer, who has stalked her family for over a decade. Brought back to life to feed on her child, she's killed again -- but not before reviving her first victim, her firstborn. The undead infant escapes, triggering a citywide search for a vampire baby whose existence threatens to expose the entire vampire society.

And they will stop at nothing to make sure that doesn't happen.

In the downtown art world/club scene of New York City, Steven and Lori, an artist and a writer, are in the middle of a bad break up. Instead of being able to simply move on, they are stuck with each other, bound by a contract to do a book on vampires. When they stumble across the real thing, will their feelings for each other intensify as they're reunited to battle monsters they scarcely believe exist?
