Have you ever bemoaned an image that didn't turn out anything like the way you remember the scene to be? One that didn't "do it justice?" How can you show with mood of a scene in a photograph? In this digital age, cameras are everywhere. The convenience of the digital camera makes it easy to own - but owning and understanding are two different things. A finished photograph is the result of a long series of choices that the artist makes. In *Photography: Where Science Creates Art* Laura Lawn offers practical information on what those choices are, how they will affect the finished image, and how to make the best choices for you. This book provides technical know how and artistic guidelines to help you develop your own personal style. Change the way you look at the world!

From reader reviews:

Charlene Martinez:

A lot of people always spent all their free time to vacation or go to the outside with their household or their friend. Do you realize? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you wish to try to find a new activity here is look different you can read any book. It is really fun to suit your needs. If you enjoy the book that you read you can spent the whole day to reading a publication. The book Photography: Where Science Creates Art it is rather good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. In case you did not have enough space to develop this book you can buy the actual e-book. You can more easily to read this book out of your smart phone. The price is not very costly but this book features high quality.

Clarence Duncan:

People live in this new day time of lifestyle always aim to and must have the free time or they will get great deal of stress from both way of life and work. So , if we ask do people have free time, we will say absolutely sure. People is human not a robot. Then we inquire again, what kind of activity do you have when the spare time coming to you of course your answer will unlimited right. Then do you ever try this one, reading guides. It can be your alternative inside spending your spare time, the actual book you have read is usually Photography: Where Science Creates Art.

Karen Baskin:

Is it you who having spare time then spend it whole day through watching television programs or just telling lies on the bed? Do you need something new? This Photography: Where Science Creates Art can be the answer, oh how comes? The new book you know. You are so out of date, spending your extra time by reading in this completely new era is common not a nerd activity. So what these books have than the others?

Diane Lomas:

A lot of publication has printed but it takes a different approach. You can get it by internet on social media. You can choose the best book for you, science, witty, novel, or whatever by simply searching from it. It is called of book Photography: Where Science Creates Art. You can add your knowledge by it. Without causing the printed book, it might add your knowledge and make a person happier to read. It is most important that, you must aware about e-book. It can bring you from one destination for a other place.
