The Sharia State: Arab Spring and Democratization Bassam Tibi

Set against the backdrop of the Arab Spring, *The Sharia State* examines the Islamist concept of political order. This order is based on a new interpretation of sharia and has been dubbed "the Islamic state" by Islamists. The concept of "the Islamic state," has been elevated to a political agenda and it is this agenda that is examined here.

In contrast to the prevailing view which sees the Arab Spring as a revolution, this book argues that the phenomenon has been neither a Spring, nor a revolution. The term 'Arab Spring,' connotes a just rebellion that led to toppling dictators and authoritarian rulers, yet in *The Sharia State*, Bassam Tibi challenges the unchecked assumption that the seizure of leadership by Islamists is a part of the democratization of the Middle East.

Providing a new perspective on the relationship between the Arab Spring and democratization, this book is an essential read for students and scholars of Middle Eastern Studies, Islamic Studies and Politics.
