Algebraic Topology (EMS Textbooks in Mathematics)

Tammo Tom Dieck

Algebraic Topology (EMS Textbooks in Mathematics) Tammo Tom Dieck

This book is written as a textbook on algebraic topology. The first part covers the material for two introductory courses about homotopy and homology. The second part presents more advanced applications and concepts (duality, characteristic classes, homotopy groups of spheres, bordism). The author recommends starting an introductory course with homotopy theory. For this purpose, classical results are presented with new elementary proofs. Alternatively, one could start more traditionally with singular and axiomatic homology. Additional chapters are devoted to the geometry of manifolds, cell complexes and fibre bundles. A special feature is the rich supply of nearly 500 exercises and problems. Several sections include topics which have not appeared before in textbooks as well as simplified proofs for some important results. Prerequisites are standard point set topology (as recalled in the first chapter), elementary algebraic notions (modules, tensor product), and some terminology from category theory. The aim of the book is to introduce advanced undergraduate and graduate (master's) students to basic tools, concepts and results of algebraic topology. Sufficient background material from geometry and algebra is included. A publication of the European Mathematical Society (EMS). Distributed within the Americas by the American Mathematical Society.

From reader reviews:

Roger Alford:

Now a day people that Living in the era where everything reachable by connect to the internet and the resources in it can be true or not call for people to be aware of each information they get. How a lot more to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Examining a book can help men and women out of this uncertainty Information particularly this Algebraic Topology (EMS Textbooks in Mathematics) book because this book offers you rich info and knowledge. Of course the details in this book hundred percent guarantees there is no doubt in it everbody knows.

Janice Arias:

Often the book Algebraic Topology (EMS Textbooks in Mathematics) will bring that you the new experience of reading some sort of book. The author style to clarify the idea is very unique. Should you try to find new book to study, this book very appropriate to you. The book Algebraic Topology (EMS Textbooks in Mathematics) is much recommended to you you just read. You can also get the e-book through the official web site, so you can quicker to read the book.

Thomas Baxter:

The e-book with title Algebraic Topology (EMS Textbooks in Mathematics) possesses a lot of information that you can understand it. You can get a lot of benefit after read this book. This specific book exist new information the information that exist in this book represented the condition of the world now. That is important to yo7u to find out how the improvement of the world. This kind of book will bring you with new era of the glowbal growth. You can read the e-book in your smart phone, so you can read the item anywhere you want.

Alex Tipton:

Algebraic Topology (EMS Textbooks in Mathematics) can be one of your starter books that are good idea. Many of us recommend that straight away because this book has good vocabulary that can increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort to place every word into joy arrangement in writing Algebraic Topology (EMS Textbooks in Mathematics) although doesn't forget the main point, giving the reader the hottest and based confirm resource info that maybe you can be certainly one of it. This great information can easily drawn you into completely new stage of crucial thinking.
