From New Age To New Gnosis: The Contemporary Significance Of A New Gnostic Spirituality Peter Wilberg

Peter Wilberg presents a political history of the subversive 'gnostic' theologies of the first century, and with it, a theo-political critique of the ruling god-concepts of the 21st century. 'From New Age to New Gnosis' is spiritual Marxism and a powerful spearhead aimed at the 'New World Order' of economic 'liberalism', neo-conservatism and military imperialism. It challenges all four faces of its famous dollar pyramid - the 'i-dollarity' of new technologies, the reduction of the human being to a genetic machine, the politically illiterate platitudes of New Age 'spirituality' - and the spiritual illiterate 'literalism' of Christian biblical fundamentalism and racist Zionazism - which now see their own zealotry mirrored and confronted by militant Islam. What Peter Wilberg's recognises is that what our divided world now calls for is not a revival of fundamentalisms of any sort but a New Gnostic spirituality that understands the "wordless knowledge within the word" (Seth).
