"Is it evil to survive, Jonathan?" What if everything you thought you knew about human evolution was changed by a trip to Mars? In 2069 Jonathan Kraine is an archaeologist on a manned mission to the red planet, where a chance discovery of an alien visitation changes the mission's focus. But when an accident happens, Jonathan and his new friend Andru are the only survivors. The mystery deepens when they must escape from confinement on the Moon in order to return to Earth. What started out as a moment of first contact soon turns into a battle to save the future and destiny of the human race.

The Children of The Dragon vampire series is epic science fiction, myth and history, romance, tragedy and triumph; linked together by the common theme of the vampire as hero. Picture them as superheroes with fangs and you will get the idea. The author has crafted an unique and original universe which takes you on a journey through the human adventure based on fan fiction she wrote during the 20th century. Each novel stands alone and covers a specific period of time, featuring characters from the first book and beyond.
