## **Foundations of Hadronic Chemistry: With Applications to New Clean Energies and Fuels (Fundamental Theories of Physics)** Ruggero Maria Santilli

A Physicist's Perspective on the Insufficiencies and Generalizations of Quantum Chemistry My Undergraduate and Graduate Studies in Italy on the Insufficiencies of Quantum Mechanics and Chemistry I was first exposed to quantum chemistry during my undergraduate courses in physics at the University of Naples, Italy, in the late 1950s. My teacher was Prof. Bakunin, a well known lady chemist in Europe at that time, who escaped from Russia with her family during the advent of communism. My three exams with her (inorganic chemistry, organic chemistry, and laboratory chemistry) were, by far, the most difficult exams of my life (although I did please Prof. Bakunin during the examinations). Besides chemistry, during my undergraduate studies I plunged into the study of physics, with particular reference to quantum mechanics and its mathematical structure. My mathematics teacher was Prof. Cac cioppoli, one of the most famous Italian mathematicians of that time, who taught me the necessity of advanced mathematics for quantitative physical studies. By reading the works of the founders of contemporary physics, it was easy for me to see the lack of final character of quantum mechanics already in these undergraduate studies.

### **From reader reviews:**

#### **George Carter:**

Information is provisions for folks to get better life, information currently can get by anyone from everywhere. The information can be a knowledge or any news even restricted. What people must be consider while those information which is in the former life are difficult to be find than now's taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you get the unstable resource then you buy it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Foundations of Hadronic Chemistry: With Applications to New Clean Energies and Fuels (Fundamental Theories of Physics) as your daily resource information.

#### **Dave Edwards:**

The reserve with title Foundations of Hadronic Chemistry: With Applications to New Clean Energies and Fuels (Fundamental Theories of Physics) possesses a lot of information that you can discover it. You can get a lot of advantage after read this book. This specific book exist new understanding the information that exist in this book represented the condition of the world right now. That is important to yo7u to be aware of how the improvement of the world. That book will bring you in new era of the syndication. You can read the e-book on the smart phone, so you can read the item anywhere you want.

#### **Richard King:**

The book untitled Foundations of Hadronic Chemistry: With Applications to New Clean Energies and Fuels (Fundamental Theories of Physics) contain a lot of information on the idea. The writer explains her idea with easy approach. The language is very simple to implement all the people, so do certainly not worry, you can easy to read it. The book was written by famous author. The author will bring you in the new time of literary works. It is easy to read this book because you can read more your smart phone, or product, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can open up their official web-site as well as order it. Have a nice examine.

#### **Vincent Olson:**

It is possible to spend your free time to see this book this guide. This Foundations of Hadronic Chemistry: With Applications to New Clean Energies and Fuels (Fundamental Theories of Physics) is simple to deliver you can read it in the playground, in the beach, train as well as soon. If you did not get much space to bring the particular printed book, you can buy the e-book. It is make you simpler to read it. You can save the particular book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.
