Friedrich Wilhelm Nietzsche

The Complete Works of Friedrich Nietzsche, Vol. 2 (Classic Reprint) Friedrich Wilhelm Nietzsche

The essays contained in this volume treat of various subjects. With the exception of perhaps one we must consider all these papers as fragments. Written during the earlyS eventies, and intended mostly as prefaces, they are extremely interesting, since traces of Nietzsche slater tenets likeS lave and Master morality, theS uperman can be found everywhere. But they are also very valuable on account of the young philosophers daring and able handling of difficult and abstruse subjects. Truth andF alsity, and The Greek Woman are probably the two essays which will pi ove most attractive to the average reader. In the essay on The GREEKS tate the two tenets mentioned above are clearly discernible, though theS uperman still goes by theS chopenhauerian label genius. Our philosopher attacks the modern ideas of the dignity of man and of the dignity of labour, because Existence seems to be without worth and dignity. The preponderance of such illusory ideas is due to the political power nowadays vested in the slaves. The Greeks saw no dignity in labour. They saw the necessity of it, and the necessity of slavery, but felt ashamed of both. Not even the labour of the artist did they admire, although they praised his completed work.
