A Man Beyond Time Rod Norville

Taking place across the boundaries of time, this riveting, romantic adventure asserts the plausibility of time travel through scientific fact as Dr. Greg Philips travels down a twisting road to right a terrible wrong from his past. After being engaged by the U.S. government to scientifically validate out-of-body remote-viewing espionage, Dr. Philips accidentally creates a mini black hole, which he then turns into a time-travel vehicle. Explaining in full detail the operation and design of the transmission electron microscope used to make the black hole as well as introducing the science of holographic theory, astral projection, and Heisenberg's Uncertainty Principle, this entertaining and informative read is perfect for any student of science as well as for lovers of science fiction, romance, and suspense.
