## Implementation of Functional Languages: 13th International Workshop, IFL 2001 Stockholm, Sweden, September 24-26, 2001 Selected Papers (Lecture Notes in Computer Science)

The 13th International Workshop on the Implementation of Functional Languages (IFL 2001) was hosted this year by Ericsson in Stockholm. The growing importance of functional languages in Ericsson products makes strong cooperation with universities attractive, and hosting IFL was one nice way to interact. Consecutive to IFL 2001, Ericsson had organized the annual Erlang User Conference, which over 100 (mostly industrial) users of the functional language Erlang attended. All participants of IFL 2001 were invited to stay for that conference as well. In this way, academia got a better insight into the potential of functional languages in industry, and industry got a feeling for upcoming ideas in this area. IFL 2001 was held in September 2001 and attracted 43 researchers from the international functional language community. During the 3 days of the workshop, they presented no fewer than 28 contributions. The contributions covered topics on the implementation, and also the use of functional languages. This volume follows the lead of the last IFL workshops in publishing a high-quality subset of the contributions in Springer's Lecture Notes in Computer Science series. All speakers at the workshop were invited to submit a paper afterwards. These submissions were reviewed by three or four referees and thoroughly discussed by the program committee. From all submissions, 11 papers were selected for publication in this volume.
