Integrated Pest Management in the Tropics (CABI Plant Protection Series)

Integrated Pest Management in the Tropics (CABI Plant Protection Series)

The implementation of Integrated Pest Management (IPM) has been a great success in temperate areas, but its role in tropical regions is less known. The tropics face specific challenges, namely weather that impacts insect life cycles and pesticide application. Beginning by reviewing the current state of pests, biological and chemical control and emerging technologies, this book then addresses specific crops, providing an up-to-date, research-oriented overview of IPM in tropical regions.
