Mammoths: Giants of the Ice Age

Adrian Lister, Paul Bahn, Richard Green

Mammoths: Giants of the Ice Age Adrian Lister, Paul Bahn, Richard Green

A dazzling visual record of one of Earth's most extraordinary species, this updated and revised edition of *Mammoths: Giants of the Ice Age* integrates exciting new research to piece together the story of mammoths, mastodons, and their relatives, icons of the Ice Age. Incorporating recent genetic work, new fossil finds, new extinction theories, and more, *Mammoths* is a captivating exploration of how these mighty creatures evolved, lived, and mysteriously disappeared. The book features a wealth of color illustrations that depict mammoths in their dramatic Ice Age habitats, scores of photographs of mammoth remains, and images of the art of prehistoric people who saw these animals in the flesh. Full of intriguing facts, boxed features, and clear graphics, *Mammoths* examines the findings—including intact frozen carcasses from Siberia and fossilized remains from South Dakota, California, England, France, and elsewhere—that have provided clues to the mammoths' geographic range, body structure, way of life, and interactions with early humans. It is an enthralling story of paleontological, archaeological, and geological exploration and of the fascinating investigations of biologists, anthropologists, and art historians worldwide.
