Aldryn Estacio

San Diego - Aerial Drone Photography By Aldryn Estacio Vol. 1 Aldryn Estacio

Born and raised in San Diego, Aldryn has been all over town exploring and documenting the city most of his life. But things changed in 2013 when he purchased his first aerial photography platform. A radio controlled quadcopter created by Dji.com turned the skies over San Diego into his playground. Aldryn has been flying what he calls his Tripod in the Sky; for a couple years now and is rediscovering his own city everyday.

Because of the angles and locations this flying camera can be placed into, the perspectives achieved are all one of a kind. This is the very first published all aerial drone coffee table photography book of America's Finest City, San Diego, CA. Aldryn also has a very unique style of shooting his photos. He shoots multiple layers of photos from one position in the sky and stitches them together to create larger composition. He explains a little more of his technique in the book.

Some locations and iconic landmarks include: La Jolla, Del Mar, Balboa Park, Mission Valley, Encinitas, Coronado, Imperial Beach, Mission Beach and San Diego State, USD, Lake Hodges and Rancho Bernardo to name a few.
