Traditional debates concerning racially hierarchical societies have tended to focus on the experience of being black. *White Women, Race Matters* breaks with this tradition by focusing on the particular experiences of white women in a racially hierarchical society. By considering the ways in which their experience not only contributes to but challenges the reproduction of racism, the work offers a rigorous examination of existing methodologies, practices and assumptions concerning racism and gender relations. Supported by extracts from in-depth life history interviews, *White Women, Race Matters* provides valuable course material.
