Field Guide to the Mammals of Britain and Europe (Field Guides)

John A. Burton

Field Guide to the Mammals of Britain and Europe (Field Guides) John A. Burton

A guide to all the terrestrial and aquatic mammals likely to be seen in Britain and Europe, with over 160 covered in detail. Concise descriptions summarize the key physical features, behaviour and range of each main animal, as well as distinguishing the similar species. Complete checklists of identification are provided in handy fact panels. These also give important supplementary information such as life cycle and conservation status. Illustrations show each main animal together with nests, tracks, signs and close-up details that help to differentiate similar species. The distribution of each mammal is shown in a clear map, which illustrates both the main range and any remnant populations. The guide also includes a practical introduction to the techniques of mammal identification, and lists of further reading, and useful addresses.
