UFOs: Myths, Conspiracies, and Realities John B. Alexander

Foreword by Jacques F. Vallee

Introduction by Burt Rutan

Commentary by Tom Clancy

A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration; includes a new afterword

"Forget everything you think you know about UFOs - this insider's account exposes the reality... Packed with top grade information, insightful analysis and fascinating anecdotes, Alexander's interesting and controversial book sets the gold standard for titles on this subject." --Nick Pope, author of *Open Skies, Closed Minds*

"Changes the playing field for both true believers and skeptics alike. Alexander strongly warns, be careful what you wish for when asking for presidential intervention. Success could set the field of ufology back decades." --George Noory, host of *Coast to Coast AM*

While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D. created an interagency group to explore the controversial topic of UFOs. All members held Top Secret clearance. What they discovered was not at all what was expected. *UFOs* covers the numerous cases they saw, and answers questions like:

- What was really in Hanger 18?
- Did a UFO land at Holloman Air Force Base?
- What happened at Roswell?
- What is Majestic 12?
- What is the Aviaary?
- What does the government know about UFOs?
- What has happened with disclosure in other countries?
- Has the U.S. reverse engineered a UFO?
- Why don't presidents get access to UFO info?

UFOs is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories here?only hard facts?but they are merely the beginning.
