Office Hours with a Geometric Group Theorist

Office Hours with a Geometric Group Theorist

Geometric group theory is the study of the interplay between groups and the spaces they act on, and has its roots in the works of Henri Poincaré, Felix Klein, J.H.C. Whitehead, and Max Dehn. *Office Hours with a Geometric Group Theorist* brings together leading experts who provide one-on-one instruction on key topics in this exciting and relatively new field of mathematics. It's like having office hours with your most trusted math professors.

An essential primer for undergraduates making the leap to graduate work, the book begins with free groups--actions of free groups on trees, algorithmic questions about free groups, the ping-pong lemma, and automorphisms of free groups. It goes on to cover several large-scale geometric invariants of groups, including quasi-isometry groups, Dehn functions, Gromov hyperbolicity, and asymptotic dimension. It also delves into important examples of groups, such as Coxeter groups, Thompson's groups, right-angled Artin groups, lamplighter groups, mapping class groups, and braid groups. The tone is conversational throughout, and the instruction is driven by examples.

Accessible to students who have taken a first course in abstract algebra, *Office Hours with a Geometric Group Theorist* also features numerous exercises and in-depth projects designed to engage readers and provide jumping-off points for research projects.

From reader reviews:

Mary Ayala:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their sparetime with their family, or their friends. Usually they performing activity like watching television, gonna beach, or picnic inside park. They actually doing same task every week. Do you feel it? Do you want to something different to fill your free time/ holiday? Could be reading a book may be option to fill your free time/ holiday. The first thing you will ask may be what kinds of guide that you should read. If you want to consider look for book, may be the book untitled Office Hours with a Geometric Group Theorist can be good book to read. May be it may be best activity to you.

George Oneal:

In this period globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You will observe that now, a lot of publisher which print many kinds of book. The actual book that recommended to you is Office Hours with a Geometric Group Theorist this publication consist a lot of the information with the condition of this world now. This particular book was represented how can the world has grown up. The dialect styles that writer use for explain it is easy to understand. Typically the writer made some investigation when he makes this book. That's why this book suitable all of you.

Kathleen Knight:

Don't be worry for anyone who is afraid that this book can filled the space in your house, you might have it in e-book approach, more simple and reachable. This specific Office Hours with a Geometric Group Theorist can give you a lot of buddies because by you considering this one book you have factor that they don't and make you actually more like an interesting person. This kind of book can be one of one step for you to get success. This guide offer you information that maybe your friend doesn't realize, by knowing more than various other make you to be great folks. So , why hesitate? Let's have Office Hours with a Geometric Group Theorist.

Catherine Graziani:

A lot of guide has printed but it differs. You can get it by net on social media. You can choose the very best book for you, science, comic, novel, or whatever by means of searching from it. It is called of book Office Hours with a Geometric Group Theorist. You can add your knowledge by it. Without leaving the printed book, it may add your knowledge and make you happier to read. It is most important that, you must aware about book. It can bring you from one spot to other place.
