This book takes a single line of code -- the extremely concise BASIC program for the Commodore 64 inscribed in the title -- and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text -- in the case of *10 PRINT*, a text that appeared in many different printed sources -- that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

From reader reviews:

Ellen Jones:

The event that you get from 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) is a more deep you searching the information that hide into the words the more you get considering reading it. It doesn't mean that this book is hard to understand but 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) giving you buzz feeling of reading. The writer conveys their point in selected way that can be understood by means of anyone who read the item because the author of this reserve is well-known enough. That book also makes your own personal vocabulary increase well. It is therefore easy to understand then can go along, both in printed or e-book style are available. We recommend you for having this 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) instantly.

Harry Keller:

Are you kind of hectic person, only have 10 or perhaps 15 minute in your morning to upgrading your mind proficiency or thinking skill perhaps analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short time to read it because pretty much everything time you only find book that need more time to be go through. 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) can be your answer given it can be read by you who have those short free time problems.

Joseph Vargas:

Many people spending their moment by playing outside with friends, fun activity with family or just watching TV all day every day. You can have new activity to pay your whole day by examining a book. Ugh, think reading a book really can hard because you have to bring the book everywhere? It fine you can have the e-book, taking everywhere you want in your Mobile phone. Like 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) which is having the e-book version. So , why not try out this book? Let's find.

Thomas Burke:

As we know that book is vital thing to add our know-how for everything. By a guide we can know everything we want. A book is a list of written, printed, illustrated or blank sheet. Every year was exactly added. This publication 10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 (Software Studies) was filled in relation to science. Spend your extra time to add your knowledge about your technology competence. Some people has diverse feel when they reading the book. If you know how big good thing about a book, you can truly feel enjoy to read a guide. In the modern era like today, many ways to get book that you simply wanted.
