Robocalypse: A Novel Mike Chamberlain (Narrator) Daniel H. Wilson (Author)

Two decades into the future humans are battling for their very survival when a powerful AI computer goes rogue, and all the machines on earth rebel against their human controllers. The machines believe that the planet would be better off without humans, and that robots would be better caretakers of the earth's ecology. The robot war wages for five brutal years, but in the end humanity triumphs. Twenty minutes after the war ends, Sergeant Cormac 'Bright Boy' Wallace is exterminating robots in the Alaskan wilderness when he finds a machine containing an information cube - the robots' black box on the entire war. Inside are thousands of accounts of humans designated 'heroes' by the machines; from children to soldiers - those who fought, and those who died. A few individual robots also rejected the super-AI's homicidal campaign and join with human forces to save their collective freedom. Robocalypse tells the story of humanity's battle to survive, with fry cooks and ordinary citizens battling rogue smart cars and independent-minded kitchen appliances, while government scientists take on murderous supercomputers.

From reader reviews:

Anthony Pippin:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a go walking, shopping, or went to typically the Mall. How about open or even read a book allowed Robopocalypse: A Novel? Maybe it is to be best activity for you. You realize beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with the opinion or you have various other opinion?

Charles McCreery:

What do you think about book? It is just for students since they're still students or the idea for all people in the world, the particular best subject for that? Just simply you can be answered for that query above. Every person has diverse personality and hobby for each and every other. Don't to be forced someone or something that they don't desire do that. You must know how great as well as important the book Robopocalypse: A Novel. All type of book are you able to see on many resources. You can look for the internet resources or other social media.

Jaelyn Utecht:

Reading a guide tends to be new life style with this era globalization. With reading you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their very own reader with their story as well as their experience. Not only the story that share in the publications. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors in this world always try to improve their skill in writing, they also doing some study before they write for their book. One of them is this Robopocalypse: A Novel.

Alice Prah:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get wide range of stress from both daily life and work. So , if we ask do people have free time, we will say absolutely yes. People is human not really a robot. Then we request again, what kind of activity do you possess when the spare time coming to you actually of course your answer may unlimited right. Then do you try this one, reading textbooks. It can be your alternative throughout spending your spare time, the particular book you have read is definitely Robopocalypse: A Novel.
