Until now, homeowners have had to choose between the twin worlds of budget-friendly mediocrity and unaffordable fantasy. Responding to this gap, acclaimed architect Duo Dickinson demonstrates that a customhouse doesn't depend on a fabulous price tag. The House You Build offers a third way of building that is grounded in the realities of time and money, but focuses on your fondest hopes and dreams. Here are 20 real-world situations where unique and imaginative homes were built on real-life budgets. When you build on a budget, there are no right answers, only careful choices. There are 20 dreams in this book, and these dreams came true. The House You Build is the first book of architect-designed homes that presents the real costs of their construction including design fees, the Six Rules on Getting What You Want (and can afford), a broad range of house styles from all over the country, and homes that accommodate a wide variety of lifestyles.
